

ASHWINTH DK

Network & AI Engineer

SUMMARY

Network & AI Engineer with expertise in computer networking, Python, Linux, Artificial Intelligence, and Machine Learning. Experienced in developing intelligent applications, network automation solutions, and secure backend systems. Strong understanding of TCP/IP, routing, switching, network security, and data-driven problem solving. Passionate about leveraging AI and ML to optimize network performance, automate operations, and build scalable, secure, and reliable infrastructure.

EXPERIENCE

Domain Hostly and Web Hosting 7 Days
Inplant Trainee

- Completed a 7-day in-plant training covering OSI, TCP/IP, routing, and switching labs across 6 scenarios
- Collaborated on hands-on activities and explored the application of AI techniques to solve practical problems.

EDUCATION

KONGU ENGINEERING COLLEGE, ERODE 2023 - 2027
BE | Computer Science and Engineering
CGPA: 8.07 (upto 6th SEM)

GREEN GARDEN MATRIC HR SEC SCHOOL May 2023
Higher Secondary Education
Percentage: 94.83

PROJECTS

1) Agro-Analytics | Machine Learning & Data Analytics

- Designed and developed a machine learning-based sales forecasting system for pesticide inventory management.

Tech Stack: Python, Pandas, NumPy, ML, Data Analytics, Flask.

Repository: <https://github.com/Ashwinth-dk/Agro-Analytics>

2) OrganizeMe | Employee Management System

- Developed a secure employee management system to manage employee records, attendance and informations.

Tech Stack: React.js, Supabase, SQL, JavaScript, CSS.

Repository: https://github.com/Ashwinth-dk/Organize_Me

3) Sentiment Analysis | Machine Learning

- Designed a sentiment analysis system using the BERT transformer architecture for accurate text classification.

Tech Stack: Python, BERT, Hugging Face Transformers,NLP.

Repository: https://github.com/Ashwinth-dk/Sentiment_Analysis

TECHNICAL EXPERTISE

- TCP/IP, OSI Model, Routing & Switching, VLANs, Subnetting, DNS, DHCP, NAT
- Network Troubleshooting, Cisco Packet Tracer, Wireshark

SKILLS

Programming Languages

Java Python C

Database

MongoDB MySQL

Backend

Node.js GitHub Spring Boot

Network Tools

Wireshark Nmap Netcat

Areas of Interest

Computer Networks Operating Systems
Artificial Intelligence Machine Learning

ACHIEVEMENTS

- Received Academic Excellence award from KVIT Trust (2023)
- Actively Participated in 24 hrous Bytes India Hackathon 2025(4th SEM)

CERTIFICATIONS

- Java SE 17 Developer – Oracle (2026)
- MongoDB Associate Developer (2025)

LANGUAGES

- Japanese -Beginner (N5 Level)
- English - Fluent
- Tamil – Native
